깃허브에 file upload를 위한 pull request

Open pull request

오픈소스 소프트웨어를 위한 깃과 깃허브 Python language

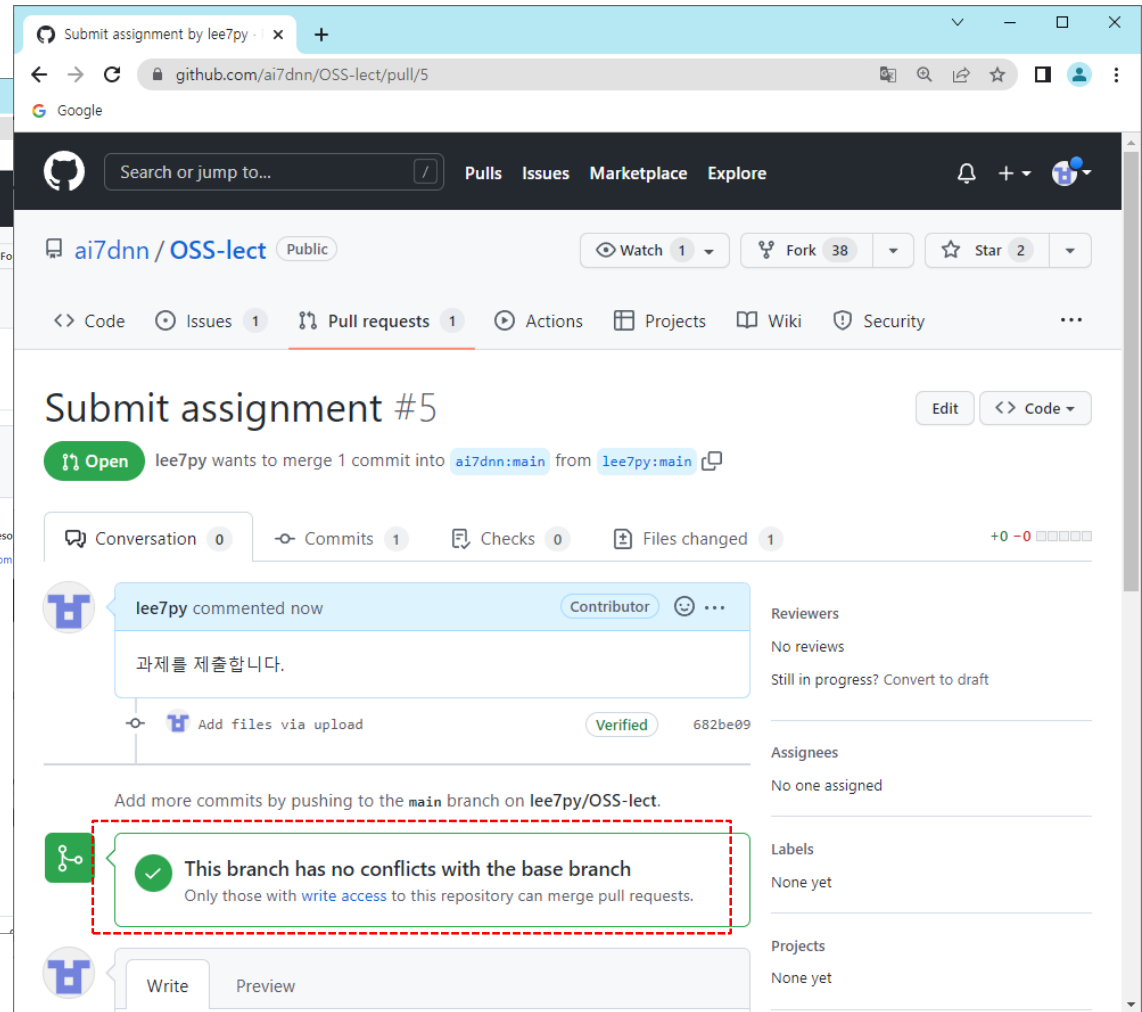

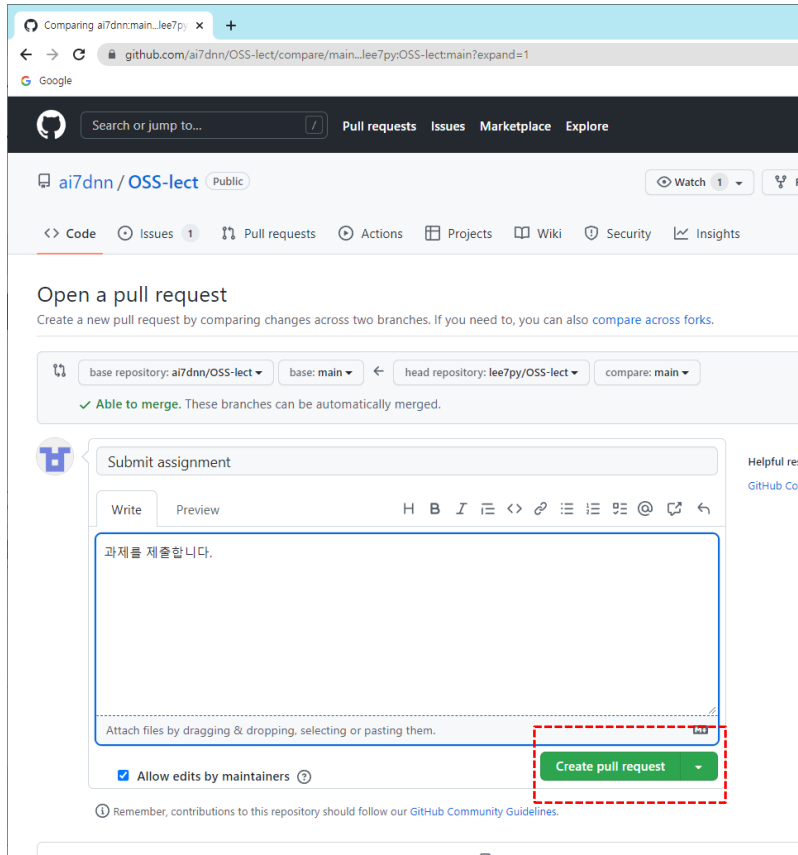

- fork한 자신의 저장소에서 파일 업로드한 후
 - 메뉴 **Contribute** > **Open pull request**

Create pull request

오픈소스 소프트웨어를 위한 깃과 깃허브 Python language

- PR을 만들고
 - 충돌이 없음을 확인

PR을 요청 받은 저장소: upstream

GitHub pull requests page for repository **ai7dnn / OSS-lect**. The page shows a list of pull requests. The first pull request, titled "Submit assignment", is highlighted with a red dashed box. It was opened 3 hours ago by lee7py. The page also displays filters (is:pr is:open), labels (15), and milestones (4). A green button "New pull request" is visible at the bottom right.

GitHub pull request details for "Submit assignment #5". The pull request is from **lee7py:main** to **ai7dnn:main**. The page shows a comment from lee7py: "과제를 제출합니다." (Submitting assignment). The pull request is marked as "Verified" and "682be09". A green button "Merge pull request" is highlighted with a red dashed box. Below the merge button, a message states: "This branch has no conflicts with the target branch. Merging can be performed automatically." A modal dialog is open, showing the merge confirmation step. The dialog contains the text: "Merge pull request #5 from lee7py/main", "Submit assignment", and "This commit will be authored by 70050528+ai7dnn@users.noreply.github.com". A green button "Confirm merge" is highlighted with a red dashed box. The page also shows a "Continuous integration has not been set up" message and a "Add more commits by pushing to the main branch on lee7py/OSS-lect." message.
